Welcome from Executive Joanne Carter

Dr. Mark Dybul

Executive Director of The Global Fund to Fight AIDS, Tuberculosis and Malaria

Mark Dybul has worked on HIV and public health for more than 25 years as a clinician, scientist, teacher and administrator. Dr. Dybul became a founding architect and driving force in the formation of the President's Emergency Plan for AIDS Relief, better known as PEPFAR. After serving as Chief Medical officer, Assistant, Deputy and Acting director, he was appointed as its leader in 2006, becoming U.S. Global AIDS Coordinator, with the rank of Ambassador at the level of an Assistant Secretary of State. He served until early 2009.

EVERYONE DESERVES

 Health  Education  Economic Opportunity

CONGRESS DECIDES WHERE OUR MONEY GOES

 Congress decides how to spend money during the appropriations process.

 This funding can support health, education, and economic opportunity for families around the world.

HOW DOES CONGRESS DECIDE HOW TO SPEND MONEY?

 **YOU TELL THEM WHAT MATTERS.**
Tell Congress to prioritize ending poverty.

Laser Talk: Appropriations for FY2017

Engage: Working in partnership with developing nations to address the root causes of extreme poverty, the US has helped cut poverty in half since 1990. Our efforts are saving lives and helping partner nations move toward self-sufficiency.

Problem: Though much progress has been made on getting kids in school, reducing preventable child deaths, and addressing killer diseases, our investments are still needed.

Solution: By investing in effect and efficient programs in health and education through the appropriations process, we are developing allies, and supporting developing nations to stand on their own.

Call to Action: Will the Representative/Senator please include the following amounts in his/her request to the Foreign Operations Subcommittee of Appropriations (choose the top one or two)?

- \$880 million for Maternal and Child Health, and include in that, \$265 million for Gavi, the Vaccine Alliance,
- \$230 million for Nutrition in the Global Health line,
- \$1.35 billion for the Global Fund to Fight AIDS, TB, and Malaria
- \$400 million for scaling up efforts to treat TB and drug-resistant TB
- \$125 million for the Global Partnership for Education, and \$925 million overall for Basic Education.

I can send you more background information on each.

Group Health Questions to Ask Yourself and/or Your Group

- What is the best outreach event you've ever been to? What made it the best?
- If we had never heard about RESULTS before, what kind of outreach event would attract our curiosity?
- What are some ideas for an impactful outreach event, one that draws people, shows them how they can make a difference, and encourages their commitment??
- Can we make a promise to ourselves or to our group to plan for an event that could be informative and inspiring?

Here's a Laser Talk for the Start of 2016

Voices That Change the World

RESULTS is a movement of passionate, committed everyday people.

Together we use our voices to influence political decisions that will bring an end to poverty.

As volunteers, we receive training, support, and inspiration to become skilled advocates.

In time, we learn to effectively advise policy makers, guiding them towards decisions that improve access to health, education, and economic opportunity.

Together we realize the incredible power we possess to use our voices to change the world.

“Never give up. Have hope.
Expect only the best from life and take action to get it.”
