

Momentum to End Tuberculosis

Wednesday, March 21, 2018 | 12:00 pm - 1:30 pm
Capitol Visitors Center - Room SVC 212-10

Tuberculosis (TB) kills more people than any other infectious disease and drug resistant TB is recognized as a global health security threat. In September 2018, the United Nations will hold the first High Level Meeting for Heads of State on ending TB, and momentum is building to end the epidemic.

Join us to hear from experts about US-led efforts to build capacity and leverage an effective, global and domestic response.

Moderator:

David Bryden, TB Advocacy Officer, RESULTS

Speakers:

- Thokozile Phiri Nkhoma, Executive Director of Facilitators of Community Transformation (Malawi) and member of the Stop TB Partnership Board
- Mukadi Yadiul, PhD, Technical Advisor, USAID
- Phil LoBue, Director, Division of Tuberculosis Elimination, CDC
- Willo Brock, Senior Vice President, External Affairs, TB Alliance
- Alessandra Luchini, PhD, Assistant Professor, George Mason University

Lunch & Refreshments will be served

*This is a widely attended event – **RSVP required** to dbryden@results.org*

Sponsored by RESULTS, American Thoracic Society, TB Alliance, Treatment Action Group, Friends of the Global Fight Against AIDS, Tuberculosis and Malaria, Infectious Diseases Society of America, and the National TB Controllers Association
